

SHOPLINE

Student: -HEMANT BAJAJ

Mentor: -MONIKA JHA

We decided to build an E-commerce website from scratch.

We decided to make this an e-commerce website with a lot of animation in it. We used HTML & CSS only. I made the login page and the landing page and tried to make it responsive and animated.

I learned how to code clean, make pages responsive and many more things. I also refreshed my knowledge in HTML & CSS. My mentor always helped me whenever I got stuck and also helped me in designing the website.
